

## 2016(161) Audi A3

€20,950

Of the entire refreshed Audi A3 range, this 1.6-litre TDI model is the one that is going to be the most obvious choice for many buyers in Ireland. Along with the new styling updates and optional tech like the Virtual Cockpit display, the A3 continues to define what a premium saloon should be. A3 offers a quiet drive that sees the suspension cope well with uneven surfaces. It feels well sprung and nicely damped over speed bumps in town and doesn't jar you around in the seat as much as some others do. The seats deserve a mention; they offer a good level of comfort and provide plenty of support for the lower back and sides.

### Spec
